

TSMA brings together hundreds of professionals and more than 140 businesses to create a stronger, more competitive manufacturing environment in the Evansville Region. Through collaboration, education, and strategic initiatives, TSMA is shaping the future of regional manufacturing.

2024 Impact Report

Developed the Evansville Regional Strategic Manufacturing Roadmap with input from more than 50 local business and more than 25 industry experts.

Engaged 106 industry professionals through 6 TSMA Peer Groups.

Hosted the first Evansville Regional Manufacturing Summit in October 2024 with 250 attendees.

Conducted 40 manufacturing facility site visits, strengthening connections, recommending resources, and understanding industry needs.

More than 150 individuals trained through TSMA's partnership with Purdue Manufacturing Extension Partnership, ensuring continued professional development.

Relaunched the TSMA LinkedIn channel to expand engagement and industry visibility. Produced a MFG Month video showcasing the products made in the Evansville Region.

Looking Ahead:

TSMA remains committed to expanding programming, launching new workshops, and increasing hands-on training opportunities to further support regional manufacturers. Through continued partnership, we will strengthen the industry, drive innovation, and grow the manufacturing workforce.
